Everyone is welcome, teachers, librarians, artists, and art lovers!
NO previous art experience required!

Do you believe in magic? WE DO!!

Using unusual materials such as toothpaste, lotion, curtain panels, and special papers, we will create sun prints, simple silk screens, batik, pastel stencils, wax resist, negative paintings, and poured watercolors. We will work small so everyone can complete a piece in each technique. We will discuss how these techniques can be used in book illustration along with a brief overview of book design. It will be a weekend of media exploration, excitement, and just plain fun! Make new friends and eat great food!

Total Cost: \$995 Includes transportation from the airport, lodging, all meals, unlimited snacks, and wireless Internet access.

All the ice cream you can eat!
